

Sensory Integration Camp

Camp Avanti® provides an intensive Occupational Therapy (OT) program within a rustic camp setting for children ages 6 to 15 who have learning disabilities and/or sensorimotor disabilities. While they have average or above average intelligence, they may demonstrate poor coordination, hyperactivity, attention deficits, inappropriate or delayed development, poor self care skills, and/or inadequate adaptive behavior resulting in behavioral problems.

The Wilbarger Model

This is the original therapeutic camp model developed by Patricia and Julia Wilbarger, sanctioned by Avanti Therapeutic Projects, LLC. This camp has the ongoing support and guidance of Patricia and Julia.

**Intensive Sensory
Integration Camp
June 30 - July 5, 2024**

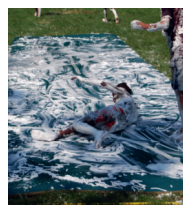

- This camp was designed for children who have learning and/or sensorimotor disabilities.
- Children who require continual one to one support for safety are not appropriate candidates.
- It is very beneficial for new campers to have an occupational therapy evaluation prior to coming to camp.
- You may be eligible for financial assistance. Check the website for more information.

Camp Avanti gave our daughter the self-confidence and self-control to be successful at home and school and gave us as parents the knowledge we needed to continue growing her skills. ”

Avanti is a unique summer camp program that combines an engaging environment with intensive OT using Sensory Integration treatment. This model therapeutically enhances the camp environment and culture to facilitate growth and development. Campers will participate daily in a broad range of activities planned for fun and therapeutic benefit, and receive OT utilizing neuro-behavioral treatment approaches. Small group experiences provide a safe environment with for the camper to seek challenges and be empowered.
